WORK EXPERIENCE

RESEARCH TRAINEE, INTERN – Hitachi, Ltd. 📍 Yokohama, JP

MAY 2015 – JUL 2015

I was under Hitachi Research & Development Group working particularly in cloud computing research on federated IaaS and PaaS Integrated Management Technology.

PROJECT LEAD & SOFTWARE ENGINEER – Microsoft 📍 Singapore, SG

MAR 2011 – AUG 2011

I am part of every innovation at Microsoft Innovation Center. I help to build and create these innovations, state-of-the-art technologies and proof of concepts to showcase to customers and partners.

DEVELOPER & RESEARCHER, INTERN – Hitachi, Ltd. 📍 Yokohama, JP

AUG 2010 – NOV 2010

I was involved in a research that was patent recently. Lifoge, a life-logging platform that gather, stores and aggregate life logs through various social media. The primary research objective was to test Hitachi's Cloud Storage.
